HERMANN WAREHOUSE EXPANDS TO DELAWARE-BASED, STATE-OF-THE-ART DISTRIBUTION CAMPUSS

Hermann Warehouse recently opened our latest North American facility with over 124,200 SF of warehouse and office space in New Castle, Delaware. The state-of-the-art distribution campus has over 421,000 SF of potential space giving Hermann flexibility for future expansion of business services. Fifteen-year veteran Dave Berglund has been assigned Warehouse Manager while his daughter Jennifer Berglund serves as customer service representative.

Located at 350 Anchor Mill Road in the Twin Spans Business Park (TSBP), the campus is owned by the leading mid-Atlantic commercial real estate developer, Harvey Hanna & Associates, Inc. (HHA). Hermann joins many nationally recognized companies and well-known regional entities already on campus.

Just one mile from the Delaware Memorial Bridge, Hermann’s new warehouse is strategically located 34 miles to Philadelphia, 70 miles to Baltimore, 107 miles to Washington, DC, and 127 miles to NYC. The warehouse offers immediate access to I-95, I-295 and I-495. The new facility is also located close to the three major shipping ports of Wilmington, Baltimore, and Philadelphia.

“This modern AIB-Certified space offers tremendous opportunity for Hermann Services to expand food-grade operations throughout Baltimore, Maryland, Virginia, Pennsylvania, New Jersey, New York, and beyond,” notes Charles Capra, President of Hermann Warehouse Corporation. When Mr. Capra was invited to join the Board of Directors last month, he had his eye on moving Hermann into new markets. Clearly, New Castle is a part of this vision as it represents a key region from which Hermann can expand its enterprise and reach for years to come.
HERMANN OPENS NEW DISTRIBUTION CENTER TO MAXIMIZE THE FLOW OF NESTLE WATERS

In a small Pennsylvania town named Alburtis, sits a brand new 500,000 SF Hermann Services distribution center dedicated to Nestle Waters. The new facility is located at the crossroads of PA 100, I-78, and the Northeast Extension. Situated within five miles of the Nestle bottling plant, the new warehouse space will help Nestle keep production at maximum capacity.

The modern facility offers tremendous cross docking capacity around the one mile rectangular corner-to-corner loop that can accommodate 350 trailers paired with 200 dock doors. Hermann Transportation provides shuttle service between the Nestle plant and the Alburtis warehouse.

Inside the motion-sensory lighting-equipped warehouse, you’ll find a 35,000 pallet storage capacity for distributing the primary product of 24-pack bottle cases. John Capra, Hermann Warehouse Operations Manager, and his Assistant Operations Manager, Mark Higgins, oversee a staff of ten warehouse personnel to keep the water flowing at all times.

NEW & FAMILIAR FACES IN THE FAMILY

Give a big welcome to these two members of the Hermann Services family!

Mark Higgins brings more than 20 years experience working with Americold to Hermann Services in his new position as the Assistant Operations Manager at the new Hermann/Nestle warehouse in Alburtis, Pennsylvania.

Mark appreciates the open door management style of Hermann Services where employees can have greater power to enact positive change in any area that can lead to improved performance or cost savings.

IN his spare time you might find Mark polishing his bowling skills, where he currently averages 228 including eighteen 300 games. He is a proud father of two sons, Logan, age 11 and Carter, age 5. He became engaged to a wonderful woman, Joanne, just two days before joining Hermann.

WELCOME BACK JOE TURNER

After 30 years driving for Hermann Leasing, Joe retired in October, 2016 to spend more time with his family in Florida. After a trip back to New Jersey, learning that Hermann acquired a new client with shipping lines to Florida, Joe decided his short “retirement” was over.

Hermann Services is happy to have Joe back behind the wheel once again.
KEEPING IT ALL UP AND RUNNING

From end user support to network remediation, the man behind the technology that keeps Hermann humming is Charley O’Neill, Director of IT Administration & Support.

Charley joined Hermann Warehouse in 1986 and found that he had a knack for updating software, troubleshooting technical problems, and setting up new computer systems.

This did not go unnoticed by management, who fast-tracked him through IT coursework to learn more. The rest is history through a few fast-paced decades of keeping the company up-to-date with advancements in technology.

Charley now oversees the entire server end network infrastructure for Hermann’s headquarters and various locations nationwide. That requires a lot of running around from division-to-division and from building-to-building, which suits Charley just fine.

Charley’s been an avid runner for the past ten years, racking up numerous 5K events, Mud Runs, and a couple of 10-miler Broad Street Runs through Philadelphia. What started off as exercising on the treadmill to get in shape and shed a few pounds has become a passion for Charley who loves to start his day with a run in order to keep the company up and running each day. Go Charley!

Essex County South Mountain Reservation
Northfield Ave. & Cherry Ln, West Orange, NJ

Get ready to join or support the Hermann Mudsters team for our annual romp through muddy obstacles. The event is built for laughs, yet we raise a lot of serious money to help put an end to MS.

Participants 12 to 18 years of age must be accompanied by a guardian who is also registered and will be present for the duration of the event.

We invite all Hermann employees, clients, friends and family to join us in the fun and/or support the team. This event presents a fun, challenging 5-mile course full of muck for participants to slosh, slip and slide through. It’s an inspiring experience whether participating, volunteering, or watching!

Funds raised through MuckRuckus MS help provide programs and services to people living with multiple sclerosis in the Northeast area and drive cutting-edge research aimed at stopping MS in its tracks, restoring the function that’s been lost and ending the disease forever.

There’s lots more to see and do in the area like visiting the Turtleback Zoo, McLoone’s Boathouse, zip lining, golfing and Thomas Edison’s National Historical Park, so make a day of it!
